All students are required to have MSA 600, MSA 640, and MSA 634 or MSA 635 on their program plans. If a particular student has a strong background in one or all of these course(s), the advisor may petition for a waiver of the requirement by completing this form (including the signature boxes for the student and advisor below). The MSA Director approves waiver requests.

Grounds for approving a waiver are that the student has a strong theoretical background and operational knowledge of the course(s) subject matter (if you have questions about the subject matter, review the course's Model Course Outline). This might include: For MSA 600, completion of a thesis for another degree. For MSA 634, MSA 635 or MSA 640, responsibilities of a sustained nature relating to managerial accounting, managerial finance or quantitative decision making involving statistical analysis and models. Waivers should not be requested if you have recommended a GTCR for the same course. If you have any questions, please call the MSA Director (989) 774-6525 before you complete the program plan.

RATIONALE: Based upon the grounds for waiver described above, please provide an explanation why you believe the student should be exempted from the requirement. Use additional paper if necessary.
