## MILITARY STUFF YOU NEED TO KNOW NOW

The **Tuition Rate** for those who qualify for a military discount will increase \$15 per credit for classes ending after August 15th. Those eligible for VA Education benefits can recoup the difference via the Top-Up Program.

Students who qualify for the military discount are required to provide **documentation** in regards their military status to include an ETS date. A new form is being developed to replace a copy of the ID card which was required previously.

The Post 9/11 VA **Chapter 33** Education Program will be implemented in August 2009. Eligible students should visit the VA website in regards Q & A of the program. It has been suggested that members use their current benefits before applying for Chapter 33.
